

STANDARD BRONZE-ARTE AND BRONZE CLAD ARTISAN PATINAS

Our hand applied artisan patina finishes use a combination of old world technique and modern science. Our handcrafted approach is intended to create unique patinas, each a living finish with character, warmth, texture and color. Patinas have subtle inherent variances in color and tone as part of their aesthetic appeal - consistency of finish is not the goal. The patinas will mature and develop naturally with exposure to their environment through oxidization of the surface.

A protective coating can be applied over the patina to help mitigate the rate of change if greater stability is desired. If left in its natural state, the patina will mature more quickly. As with classical bronze statuary, the living finishes are an integral part of the beauty of the object they are applied to.

- IMAGES ARE FOR DISCUSSION GUIDES ONLY. DIFFERENT LIGHTING AND TEXTURES CAN RESULT IN COLOUR VARIATIONS.
- PHYSICAL SAMPLES SHOULD BE REVIEWED AND APPROVED BEFORE ORDERED CONFIRMATION.
